Beyond the Casework	20

mediatechnologies® makes casework

In fact, we make a lot of casework. We can provide standard as well as custom-designed casework. It's well designed, well-built, modular, reconfigurable, will last for a lifetime and looks darn good. When you compare it to other "millwork" on the market, you will find that it is also a good value. You can't ask for more than that, can you? In the event that you *can*...we can probably handle that request as well. Go on, try us.

If you have needs beyond traditional casework... we also have **elements®**, an innovative and patented line of easily-reconfigurable modular casework, custom design capability and an exciting collection of seating, tables, desks, podiums, tech carts and various storage options.

Our Promise...Lasting Value

Whether your application is Workspace, Mediaspace or Anyspace, **mediatechnologies®** Casework delivers value year after year. Our wide range of standard and custom casework is designed to provide lasting performance - even in high-use environments. You can count on a quality experience with **mediatechnologies®** from design through delivery and for years afterward.

Casework

We're all in

When you choose mediatechnologies, you are choosing more than a product - you are choosing a *whole company*. Our team is ready for you. From selecting casework and materials to space planning, design and installation - we're all in. Our goal is to ensure that you are impressed by the "mediatechnologies experience" now and years into the future.

Count on us

1. **Lasting Value** and return on investment
2. **Performance** over the long haul in high abuse environments
3. **Modularity** in design makes it easy to configure and reconfigure
4. **MAS Certified Green**. We are an environmentally responsible choice
5. **The mediatechnologies Customer Experience**. It's like we're family

Lounge and employee break areas

Contract

With our broad spectrum of standard and custom casework capabilities, **mediatechnologies®** can help you create the office environments you desire - from traditional to contemporary. Let us help you explore the possibilities in private office, open plan, conference and board room, gather areas, reception, lounge and employee break areas.

Contract

Private office casework can be integrated with work surface areas or planned as separate entities

Inner Office

mediatechnologies®' range and expertise extends way beyond the perimeter of the room. Let us assist you with work surface, table, seating and your collaborative furniture needs as well.

Cabinets with tackable door material and lockers in an elementary school classroom

6

Freestanding or wall-mounted eWall units create space by combining storage and marker board space

Learning Spaces

Attractive, functional and rugged cabinetry that stands up to the hard-use classroom environment is hallmark of **mediatechnologies'** casework. We can provide the various learning environments you desire through any combination of our standard and custom casework.

mediatechnologies® can design and build to meet any of your educational requirements.

Let **mediatechnologies®** help you beyond your casework needs. Explore our full range of seating, tables, desks, podiums, tech carts and extensive library collections.

Education

An art room with a wide variety of casework options and an integrated marker board

Musical instrument storage

A typical science classroom cabinet array

Laboratory

Chemlam or solid epoxy work surfaces available. Wall cabinets feature framed cabinet doors and easy-to-clean construction

Laboratory

mediatechnologies® will design and engineer casework to meet the unique needs and work flow of your facility. From pharmaceutical, agricultural or industrial to research, test or education, **mediatechnologies®** will help you to determine the best components and work surface materials that will ensure long-lasting performance in corrosive, chemical or contaminant environments.

**SST Science Tables from Anyspace Collection*

Healthcare

Healthcare

ER, OR, exam and procedure areas, labs, pharmacy, offices and staff areas demand the highest level of infection control. **mediatechnologies®** healthcare casework meets this requirement with features you can specify like easy-to-clean design, carefully selected materials, sealed edges and other features that enhance infection control.

In-room casework to match your motif

10

Hospitality Environment

mediatechnologies® casework is right at home in high-traffic, image-dependent hospitality environments. From in-room to lobby, food service and lounge applications **mediatechnologies®** casework will provide the performance and reflect the image you want to project for years and years.

Look to **mediatechnologies®** for other outstanding furnishings like reception desks, lobby and lounge furniture.

Utility and vestibule spaces

All Hospitality Environments

mediatechnologies® has a lot more to offer your hospitality project than casework. Explore our Anyspace Collection to find tables, seating, benches, interactive seating and desking to complete your vision.

We can help you with design, floor plan, product and material selection to create your ideal hospitality aesthetic.

 Compartment Size:
 8 - 12.375" w x
 14.625"h
 Holds 8 trumpets,
 cornets or alto
 saxophones

SMC-12525
 Compartment Size:
 25.50"w x 25"h
 Holds 1 baritone,
 euphonium
 or mellophone

SMC-6814
 Compartment Size:
 6 - 8"w x 14.625"h
 Holds 6 clarinets,
 flutes, piccolos or
 oboes

SMC-41214
 Compartment Size:
 4 - 12.375"w x
 14.625"h
 Holds 4 trumpets,
 cornets or alto
 saxophones

SMC-21214
 Compartment Size:
 2 - 12.375"w x
 14.625"h
 Holds 2 trumpets,
 cornets or alto
 saxophones

SMC-2814
 Compartment Size:
 2 - 8"w x 14.625"h
 Holds 2 clarinets,
 flutes, piccolos or
 oboes

SMC-4814
 Compartment Size:
 4 - 8"w x 14.625"h
 Holds 4 clarinets,
 flutes, piccolos or
 oboes

MUSIC CABINETS

Available in a variety of sizes to accommodate storage of several different shapes and sizes of instruments.

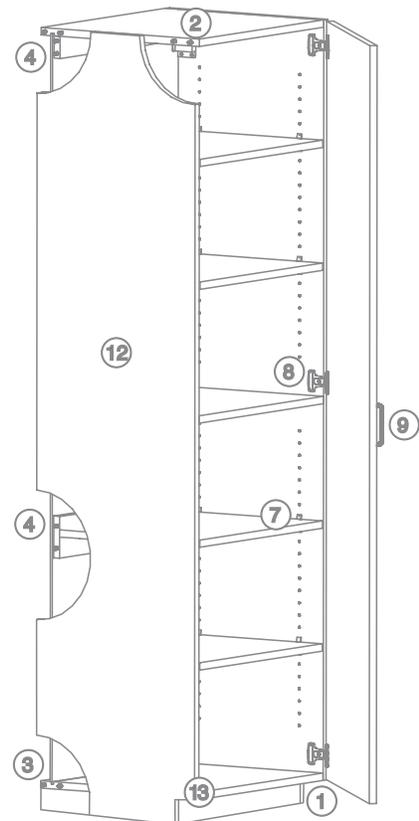

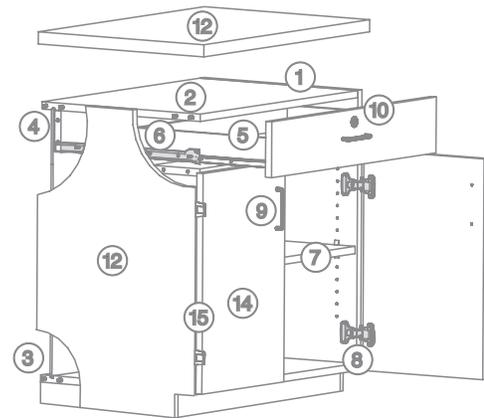

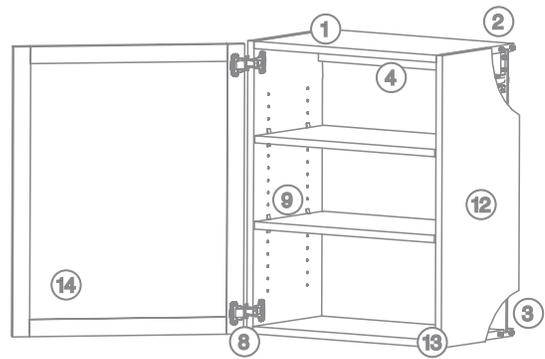

Doors available in your choice of HPL or wire grille doors.

STANDARD CONSTRUCTION

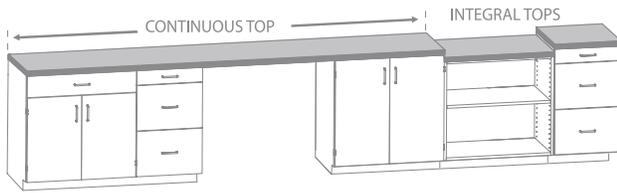

1. Cabinet construction available with 3/4" thick engineered wood side panels, sub-tops, vertical dividers and shelves. Base cabinet bottoms and all adjustable shelves over 36" in length are 1" thick engineered wood. Base cabinets do not include levellers.
2. Dowel construction meets AWI Premium Standards.
3. 1/4" thick cabinet backs.
4. Dowel pinned structural 3/4" stringers add rigidity.
5. Full 4-sided drawer boxes use:
 - Veneer Finish Cabinets** - Hardwood veneer core plywood.
 - Laminate Finish Cabinets** - 3/4" thick material with Classic Maple TFL finish and PVC edges.
6. Drawer Slides are available in two options:
 - A: 3/4 extension slide B: Full extension slide
7. Shelves are adjustable on 32mm (1-1/4") increments.
8. Available Standard Hinges are shown on the next page .
9. Available Standard Pulls are shown on the next page.
10. Lock option:
 - Cam locks are chrome finished 5 disc dead bolt locks. The lock core is removable with a control key, permitting owner to easily change lock arrangements without tools.
11. Tops are available in 2 options:
 - Standard Top** - Cabinet receives individual modular top constructed of 1-1/4" thick engineered wood with .050" high pressure laminate (HPL) and a phenolic backer sheet. Edges are 3mm PVC on front and .5mm (.020) PVC on sides and back.
 - Continuous Top** - Cabinet will be constructed with a sub-top only. Continuous Tops are ordered as a separate line item. *Other tops are available (Epoxy, Solid Surface, etc.)*
12. Box Finish is applied to all cabinet faces. Available in 4 options:
 - TFL** - Thermally Fused Laminate.
 - HPL** - High Pressure Laminate.
 - Veneer Oak** - Grade AA plain sliced oak veneers on 3/4" industrial engineered wood core.
 - Veneer Maple** - Grade AA plain sliced maple veneers on 3/4" industrial engineered wood core.

(Note: Toes are left unfinished on base and tall cabinets).
13. Box Edge (including bottom edge of base cabinets), will be nominal .5mm (.020) PVC.
14. Front Finish is applied to cupboard doors and drawer fronts. Available in 5 options:
 - TFL** - Thermally Fused Laminate
 - HPL** - High Pressure Laminate
 - Veneer Oak** - Grade AA plain sliced oak veneers on 3/4" industrial engineered wood core.
 - Veneer Maple** - Grade AA plain sliced maple veneers on 3/4" industrial engineered wood core.
 - Framed Doors** - Only available for doors.

Special veneers and exotic woods available upon request.
15. Front Edge will be 3mm PVC for TFL and HPL Finished Fronts. Veneer fronts will receive 3mm wood in coordinating finish. Other edge options are available. Contact the factory for details.

Integral vs Continuous Top

- Cabinets are available with your choice of integral or continuous tops.
- Integral tops give you the most flexibility as your needs change. They allow you to move or rearrange one cabinet at a time or re-purpose the entire room.
- Continuous tops are a great choice also, but they require removing before you can reconfigure your space. New tops can be purchased as your needs change. Back splashes are available as well.
- Chemical resistance HPL, Epoxy Resin and Solid Surface tops are also available.

Group 1 (Standard) Pulls

P1
Wire Pull
available in Black (P1B)
or Nickel (P1N)

STANDARD MATERIALS

Standard Top - Cabinets receive individual modular top constructed of 1-1/4" thick engineered wood with .050" high pressure laminate (HPL) and a phenolic backer sheet. Edges are 3mm PVC on front and .5mm (.020) PVC on sides, bottom and back.

Box Finish is applied to all exterior cabinet faces. Available in 4 options:

- **TFL** - Thermally Fused Laminate, all balanced construction.
- **HPL** - High Pressure Laminate. Vertical Grade .032" thick high-pressure laminate, all balanced construction.
- **Oak Veneer** - Grade AA plain sliced oak veneers on 3/4" industrial engineered wood core.
- **Maple Veneer** - Grade AA plain sliced maple veneers on 3/4" industrial engineered wood core.

Box Edge will be nominal .5mm (.020) PVC.

Front Finish is applied to cupboard doors and drawer fronts. Available in 5 options:

- **TFL** - Thermally Fused Laminate, all balanced construction.
- **HPL** - High Pressure Laminate. Vertical Grade .032" thick high-pressure laminate, all balanced construction.
- **Oak Veneer** - Grade AA plain sliced oak veneers on 3/4" industrial engineered wood core.
- **Maple Veneer** - Grade AA plain sliced maple veneers on 3/4" industrial engineered wood core.
- **Framed Doors**

Front Edge will be 3mm PVC for TFL and HPL Finished Fronts. Veneer fronts will receive 3mm wood in coordinating finish.

See our Finish and Color Guide for color selections, laminate patterns, and wood finishes. Base cabinet toes are left unfinished.

18

Our logo is green for a good reason

- Our casework is constructed from traceable chain-of-custody wood-based materials that carry the FSC eco-label
- Our casework utilizes NU Green, E-0 non formaldehyde emitting engineered wood and plywood
 - NAUF is available when ordering HPL and TFL construction for an additional charge
- All our casework is CARB2 Compliant
- We are proud to be an active participant in the LEED System

FINISHES & COLORS

A full palette of finishes and colors for your project

Whether you are selecting color for your new project or aiming to match something you already have, the full spectrum of mediatechnologies' standard finishes and colors is available for you in our FINISH and COLOR GUIDE. In it you'll find...

- Standard Finish Colors for box and front finishes in TFL and HPL
- Additional Laminates for box and front finishes as well as tops and work surfaces
- Additional PVC Edge Colors for front edges as well as tops and work surfaces
- Powder Coat Colors for any steel
- Wood Finishes for any veneer as well as wood edges
- Tile Finishes for marker board, cork board or tack board
- Information about our myriad fabric options

www.mediatechnologies.com/resources/entry/downloads/3579

NONSTANDARD MATERIALS & TRIM

Is your requirement... "a little left" of standard?

Contrasting grain, veneer & laminate combinations, inlays, cabinet door materials, non-standard pulls, whatever your variation may be - mediatechnologies will work with you to achieve your design goals

- Dimensions
- Edges
- Materials
- Inlays
- Grain Orientation
- Cabinet Doors
- Sequenced Grain
- Pulls
- Laminates
- Lots of Other Variations

CUSTOM DESIGN & MANUFACTURING

When "cookie-cutter" just won't cut it

Do you need custom casework? Relax. You've come to the right place. We know that customers' needs vary and that "standard" doesn't fit everybody. At mediatechnologies, custom is an everyday thing. You might say, we make a habit of it. Why? The answer is simple - we're good at it. We're so good at it that we've developed a reputation for quality custom work.

BEYOND THE CASEWORK

We're no "One Trick Pony"

Sure, we're a small manufacturer - when compared to many of our gargantuan competitors located not so far away. We see that as our *advantage*. We're nimble. We can say yes, when others say no. We can bend rules to make things happen. Heck, where you're concerned, there *aren't* any rules. Think of us as that little guy on the basketball team that kicks everyone else's butt. Yeah, we work hard to make sure that we have something of real value to offer. We make great cabinets. We also make great tables, desks, bookstacks, workstations, seating, benches, etc., etc., etc.

If you're working in a **Mediaspace**, **Workspace**, or basically **Anyspace** at all... You need to be working with us! We're like your relatives in the furniture business.

Why don't you call more often?
