General Specifications

Cabinet: Side panels are 7/8" particle board construction with .050" high pressure laminate on both sides with 3mm PVC banding on exposed edges. Back panel is 11/16" particle board construction with .050" high-pressure laminate on both sides. Side and back panels have embedded 1/4-20 threaded metal inserts to accept machine threaded connecting hardware for metal-to-metal fastener contact with support frame. A 1" x 1" 18-gauge steel U-frame is fastened near the bottom of the cabinet assembly with 1/4-20 35mm bolts. Sub-top is 3/4" particle board construction with 3mm PVC banding on exposed edge. 14" diameter opening is located in center of the sub-top. Side panels and sub-top are assembled with dowel and glue joinery.

Casters: Two (2) black 75mm twin nylon locking swivel casters are mounted to the bottom of each end panel with caster U-brackets.

Door: Door panel is 11/16" particle board construction with .050" high pressure laminate on both faces and 3mm PVC banding on all edges and a recessed door pull. Door is hung on concealed hinges.

Top Surface and Trayshelf:

Top surface and Trayshelf are 7/8" particle board construction with .050" high pressure laminate top and .030" phenolic backer. 12" diameter opening is centered in the top surface and fitted with a 12" stainless steel liner ring.

Suggested Receptacles:

The Oscar Trash Receptacle enclosure is designed to accept:
- RUBBERMAID BRUTE 32 GALLON with DOLLY or equivalent.
- RUBBERMAID BRUTE 44 GALLON (no DOLLY) or equivalent.
