### Forum Relax Lounge vs. Forum Work Lounge

Forum Relax Lounge and Forum Work Lounge are essentially the same lounge seat with different bases. Through the development of a new steel base, the shell of the Forum Work Lounge Seat has been rotated 8-degrees forward to create a more forward/upright posture which is more comfortable for laptop use and the use of other devices.

The Forum Relax Lounge is the Forum Lounge which has been given a slightly more differentiating name to suit its intended application.

Both Forum Relax Lounge and Forum Work Lounge share the same iconic DNA of the stylish and comfortable Forum Lounge.

### Construction

Fully Upholstered Seat and Back: Fabric over CAL. 117 approved foam

Frame: 9/16" diameter steel rod; non-marring glides standard.

Optional Tablet Arm: 19" x 11"; Tablet arm rotates 360-degrees. As tablet surface is moved to allow user to slide in/out, it pivots on a horizontal plane. It requires an additional 19-1/4" of space next to the chair as it swings all the way out. Forum Relax and Forum Work each require a specific tablet arm. (See Optional Accessory Items above).
