Romak  
RM-18L

Dotti  
DOTTI-18

#### General Specifications

**Work Surface/Side Shelf:** Work surface and side shelf are 1-1/4" thick, three ply engineered wood construction with .050" high pressure laminate and a phenolic backer sheet. Work surface and side shelf are banded with 3mm PVC. Work surface is 18"D x 38-3/8"W. Exposed corner has a 3" radius. Side shelf is 10"D x 23"W. Exposed corner has a 3" radius. Work surface and side shelf are attached with M6 x 1mm x 10mm pan head truss screws to the side and back panels with (4) steel Z brackets that are located in dado in underside of top. Work surface includes (1) 80mm grommet and wire management channel.

**Back Panels:** Panels are 1-1/4" thick, three ply engineered wood construction with .050" high pressure laminate on both sides. Back panels are 1-1/4" thick x 41-5/8"D x 48"H. Panels are banded with 3mm PVC on the top and bottom edge and have embedded threaded metal inserts to accept machine threaded connecting hardware for metal-to-metal fastener contact.

**End / Intermediate Panels:** Panels are 1-1/4" thick, three ply engineered wood construction with .050" high pressure laminate on both sides. Side and intermediate panels are 1-1/4" thick x 38"D x 48"H. Panels are banded with 3mm PVC on all edges and have embedded threaded metal inserts to accept machine threaded connecting hardware for metal-to-metal fastener contact. Each side/intermediate panel is equipped with two adjustable levelling glides with nylon feet.

**Work Surface Height:** The standard height is 29".

**Side Shelf Height:** The standard height is 16".

**Modular Design:** Carrels may be assembled in starter/adder configuration. Adder units are similar to initial units but substitute one intermediate panel for two end panels.

**Please Note:** Left and Right Facing designations are determined by the direction the user faces while sitting in the unit as observed from the front of the unit.
